

# TORINO island

Torino's sculpted glass island canopy takes its shape from the simple elegance of the martini glass and was originally inspired by Italy's post-war fascination with American pop culture. The frosted green canopy and conical chimney are sure to turn a few heads, as will the electronic touch controls and an infrared remote that put you in charge of lighting and the six-speed internal blower from a distance.

- Sculpted glass lends a free-form look to today's contemporary kitchen
- Touch-sensitive controls and infrared remote adjust the lights and six-speed internal blower
