**Zephyr Launches Lucé Wall Range Hood with Icon Touch™ Controls
Glamour Meets Technology; A Futuristic Hood for the High-Tech Kitchen**

SAN FRANCISCO—Zephyr, the leader in ventilation hood design, innovation and technology, today announced the launch of the Lucé Wall range hood with ICON Touch™ Controls. The convenience and style of integrated touch technology shouldn't stop with your phone or tablet; Zephyr continues to push boundaries with industry-first fully integrated touch controls and a stunning hood that combines glamor with technology.

The Lucé boasts an elegant slice of sleek stainless steel married with subtle ambient lighting and feature-rich technology. The integrated LED lights include Cloud White, Deep Blue and Amber colors that wrap around the perimeter of the hood and add a soft element to the cooktop at night.

The ICON Touch™ Controls seamlessly integrate into the hood's stainless steel canopy and contribute to the hood's sleek aesthetic. Homeowners can easily control the 5-speeds, delay-off function, auto reminders and Airflow Control Technology (ACT™: an exclusive technology that gives builders and developers the freedom to install range hoods with maximum blower CFM, without having to compromise power or design).

A futuristic hood for the most discerning home chef, the Lucé with ICON Touch™ makes a bold statement in the kitchen with its minimal elegance, smart technology and competitive price. Available in 600 CFM with 1-6 sones and Recirculating Kit options, the Lucé is packed with power and puts on a strong performance to ensure the air in your kitchen stays fresh and recirculated.

"We're excited to kick off the New Year with our new Lucé hood," says Luke Siow, Zephyr president. "In addition to its gorgeous LED lighting, we believe homeowners will love the Lucé's ICON Touch™ Controls; a feature that we've worked hard to ensure is easy to use, seamlessly integrated into the hood and a breath of fresh air when it comes to ventilation design and technology."

The Lucé with ICON Touch™ Controls is available Spring 2014 and retails for \$1299.

About Zephyr

Since 1997, San Francisco-based Zephyr has continued to bring design, innovation and technology to the forefront of the kitchen ventilation hood industry. The company has challenged the perception of what ventilation means in kitchen design and created a new awareness of the importance of a high performing ventilation system. With acclaimed talent such as artistic visionary, Fu-Tung Cheng, and industrial designer, Robert Brunner, Zephyr is able to create cutting-edge residential range hoods unlike any other company. In addition, Zephyr has pioneered ventilation hood technology with the industry's first DCBL Suppression System™; an exclusive innovation that delivers the most silent, energy efficient and performance-driven range hoods available today. As a direct result of its commitment to elevating range hood design and technology, Zephyr is the recipient of several prestigious awards including Consumer Report Buy Rating, Consumer Digest Best Buy Rating, Chicago Athenaeum Good Design, ADEX (Awards for Design Excellence), Appliance Design 'Excellence In Design' and the Architectural Products 'Product Innovation Award.'
