## Gramovox Floating Record Vertical TurnTable

BY GRAMOVOX

DESIGN FIRM PRODUCT DEVELOPMENT  
TECHNOLOGIES

The Floating Record is a high-performance turntable that plays records vertically through built-in, dynamic, full-range stereo speakers (or via RCA line out). Designed for everyone from first-time record listeners to seasoned vinyl enthusiasts, the Floating Record delivers a visceral experience that showcases the record as both art and as a medium to product analog sound.

## Wave BY ZEPHYR VENTILATION

Wave features a slim profile that complements kitchen décor styles from transitional to modern. The square-shaped hood features a slight tilt and smooth glass panel in black or white; the perfect hood for homeowners that crave an alternative to stainless steel. These new "vertical" style range hoods can be used with or without duct covers creating a new category in kitchen ventilation.

## Hestan Commercial Salamander (HSM-xx) BY HESTAN COMMERCIAL CORPORATION DESIGN FIRM HESTAN COMMERCIAL CORPORATION

The Hestan Salamander is a heavy-duty, patent pending, stainless steel commercial cooking appliance which is used as an over-fired broiler. The salamander features an infrared gas burner, a vertical height-adjustable and horizontal fully-extendable cooking rack and carriage. Food can be placed directly on the rack for broiling, searing, finishing, or in pans for cooking and melting cheese. The unit is used as a broiler to cook or to crisp products. The product can be range-mounted (on a riser above other equipment), wall-mounted, or a counter model. [www.hestancommercial.com](http://www.hestancommercial.com)
