MAKING HISTORY

Zephyr Continues to Redefine Range Hood Design and Innovation

SINCE 1997, ZEPHYR HAS BEEN AT THE FOREFRONT OF KITCHEN INNOVATION, effectively reinventing the ventilation category. Now, as the San Francisco company marks its 20th anniversary, Zephyr continues to change the marketplace by blending form and function to create beautiful, high-quality hoods that are an asset to any home.

The innovative company made history with its reinterpretation of what was once considered a design afterthought. With thoughtful designs and an ongoing commitment to technological advancement, the company elevated the kitchen hood from a purely utilitarian appliance to an eye-catching, artful centerpiece. Products like the DCBL Suppression System®—the industry's first range-hood motor powered by direct current (DC) energy—Airflow Control Technology™ (ACT™), Bloom™ HD, and BriteStrip™ LED lighting continue to pave the way with pioneering technology.

Zephyr released a luxury collection of signature hoods through an exclusive partnership with Berkeley design guru Fu-Tung Cheng, which brings their artistic and timeless style to the masses.

Also enriching the Zephyr collection is renowned designer Robert Brunner, founder of Ammunition

Design Group, the creative powerhouse behind products like BEATS by Dre. Brunner's innovative Arc Collection for Zephyr is a geometrically stunning marriage of glass and metal, resulting in products that are sophisticated and modern.

As global style and technology continue to evolve, Zephyr is keeping pace with products such as its new Black Stainless Steel hood, an alternative to standard stainless steel with a sleek, durable design made with a titanium coating. Looking toward the future, Zephyr is committed to pushing the envelope with range hood innovation and connecting the kitchen with new products that are sure to shake up the industry.

Visit the Zephyr Ventilation San Francisco Showroom at 2277 Alameda Street, San Francisco, CA 94103. Call them at 888.880.VENT or visit their website, zephyronline.com.
