AMAZING RENOVATIONS,

People gather in the kitchen, so I believe in making it beautiful. Colorful ranges and hoods can elevate a space and transform it into something new—they're timeless, not trendy. —SUZANNE KASLER

We're all used to the way security is:  
Control panels, contracts,  
passcodes and paranoia.  
Lots of hurry hurry, quick quick,  
But what if security were different?  
What if it felt like  
it was one step ahead?  
With the answers to  
"What was that?" and  
"Who is that?" just like that.  
What if it were tough on  
bad guys, easy on you?  
What if it were so simple to use,  
you actually used it?

From now on, this is security.
