## OPENING ARGUMENT

A new line of custom conservatories lets the indoor chef cook alfresco

**THE CAULFIELD CO.**'s bespoke winter gardens put a state-of-the-art spin on traditional conservatories, with folding glass walls (insulated to Passive House standards) and electronically controlled awnings that give shade when needed. Order one freestanding or as an extension to your home, like this stunner—complete with a kitchen by Charlie Smallbone and deVOL—that debuted at the 2018 RHS Chelsea Flower Show; price upon request.
