

Quick-Start Guide

Zephyr Connect

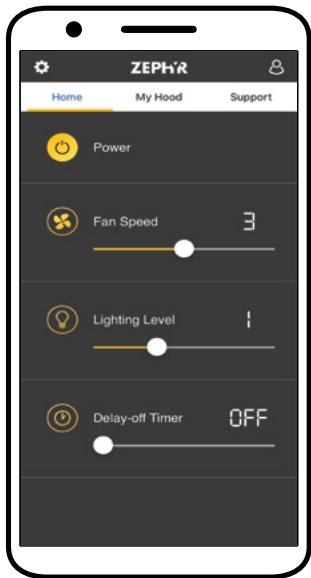

Thank you for choosing Zephyr!

Your range hood is compatible with our Zephyr Connect app. All you need is a Wi-Fi connection with access to the internet.

Zephyr Connect allows you to control your range hood from anywhere using a mobile device or smart speaker; includes real time diagnostics and provides you with important product information. Please follow this Quick-Start Guide to get started.

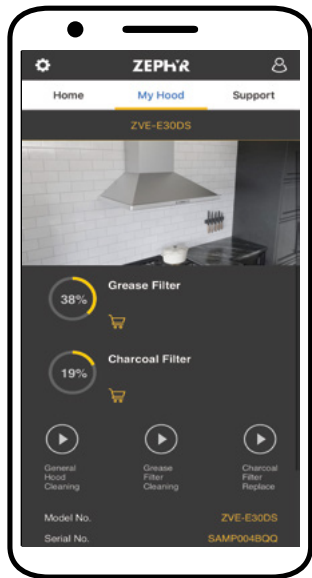

Zephyr Connect helps you connect to what matters.

Zephyr Connect App Features

Control your hood remotely with convenient slider buttons:

- Fan Speed
- Lighting
- Delay-Off Timer

View important information:

- Filter Life Status
- How-To Videos
- Model and Serial Numbers
- Warranty Information

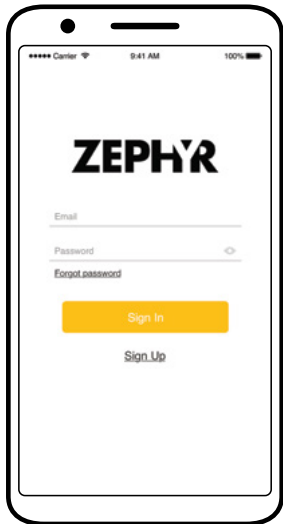

1 Getting Started

Ensure your range hood is connected to a power source and within range of your WiFi network.

2 App Install

Download the Zephyr Connect app from Google Play or the Apple App Store, and follow the on-screen instructions.

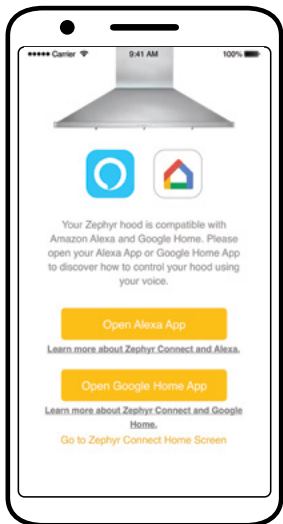

NOTE:

You will need to place your hood into Bluetooth®-pairing mode during setup by holding the Fan Down and Light buttons simultaneously for 3 seconds. The Bluetooth® pairing code is 123456.

3

Amazon Alexa and Google Home Connectivity

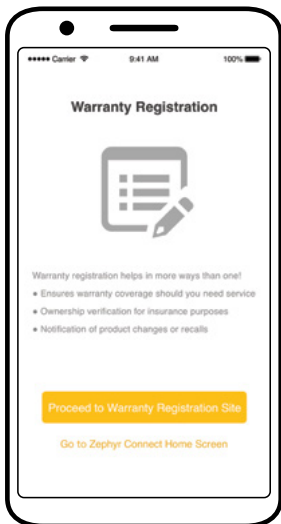

During setup, follow the on-screen instructions to connect your hood to Amazon Alexa and/or Google Home. This can also be set up later by tapping the Profile icon (👤) in the app.

Warranty Registration

During setup, follow the on-screen instructions to register your hood's warranty. This can also be set up later by tapping Support in the app.

NOTE:

You will create a Zephyr Online Store account during this process which is separate from the Zephyr Connect account.

5 Amazon Alexa

Here are some commands you can give Alexa:

Turn hood on to last setting or turn it off:

Alexa, turn [On, Off] Zephyr.

Set a specific fan speed:

Alexa, set Zephyr Fan Speed to [1-6].

Set a specific light level:

Alexa, set Zephyr Light to [1-3].

Start/Stop Automatic Delay-Off Timer:

Alexa, [Start,Stop] Zephyr Delay Off Timer.

NOTE:

You can rename your Zephyr hood in the Amazon Alexa app.

6 Google Home

Here are some commands you can give Google Home:

Turn hood on to last setting or turn it off:

Hey Google, turn [On, Off] Zephyr.

Set a specific fan speed:

Hey Google, set Zephyr to Speed [1-6].

Set a specific light level:

Hey Google, set Zephyr Light to [1-3].

Start/Stop Automatic Delay-Off Timer:

Hey Google, start [1-10] minute timer on Zephyr.

Hey Google, stop timer on Zephyr.

NOTE:

You can rename your Zephyr hood in the Google Home app.

Troubleshooting

Q: How many accounts can I use to control my range hood?

A: Only one range hood can be bound to an account. However, you can log into multiple devices using the same Zephyr Connect account.

Q: My device is not pairing via Bluetooth to the range hood.

A1: On your device, make sure Bluetooth is turned on.

A2: Make sure Bluetooth pairing mode is enabled on the hood.

A3: Make sure the correct pairing code is used; 123456.

Q: The range hood will not connect to WiFi. Note: When your range hood is connected to WiFi, you will see the WiFi icon illuminated on the range hood controls.

A1: Make sure your device is connected to the same network you are trying to connect your range hood to.

A2: Make sure you are connecting to a 2.4 GHz network.

A3: Make sure your range hood is within range of your network.
