ZEPHYR

PRODUCT BULLETIN

We are excited to announce our new Zephyr Connect range hoods. The Zephyr Connect app allows you to control your range hood from anywhere using a mobile device while providing you with real time diagnostics, maintenance reminders, and important product information. Zephyr Connect seamlessly integrates with Amazon Alexa and Google Home smart speakers for hands-free voice activation to control the hood functions (E.g. *Alexa, turn on Zephyr,* or *Hey Google, set Zephyr to speed 5).*

All Zephyr Connect models are designed to provide the ultimate technology experience through the following innovative components:

- PowerWave™ Blower Technology which is virtually silent, exceedingly powerful, and delivers up to 700 CFM with an optional 1,300 CFM dual blower available in select models.
- Tri-level LumiLight LED lights are built to last with a 25,000 hour life, require less energy than halogen lights, and are cool to the touch.
- Proximity Touch Controls activate when someone approaches the hood, illuminating the buttons you can interact with and then disappear into a mirror finish when the hood turns off.

Zephyr Connect can be found in our popular Venezia, Napoli, Milano, and Monsoon Connect products as well as two new models: Tidal I and Tidal II. The Zephyr Connect app can be downloaded from the Apple App Store and Google Play. Please visit our website to learn more and view specification sheets for each model.

Zephyr Connect

MODEL DETAILS
- Common Features
    - 700 CFM blower (ACT 590/390/290)
    - 6 speed proximity touch controls
    - LED lighting
    - Stainless steel finish
    - Zephyr Connect app compatibility
    - Amazon Alexa and Google Home compatibility
    - Warranty: 3 years parts, 1 year labor
- Zephyr Core Collection
