

DESIGNER COLLECTION

September 7, 2021 Revision: 2021-04 From: Jeremy Snider Subject: **Zephyr Designer Collection Updates** 

Zephyr is driven by the idea that everything in the home is an opportunity for personal expression. That philosophy shines through with the introduction of six new kitchen ventilation hoods in our Designer Collection. Inspired by geometry and modern art, the Zephyr Designer Collection features a timeless aesthetic that can complement a broad range of kitchen styles and materials – making them a gorgeous addition to any kitchen. From the iconic Horizon hood that appears to float above the cooktop, to the glamorous Mesa Wall in bold new finishes, the Designer Collection is an expression of artistry and groundbreaking engineering.

DESIGNER COLLECTION

The **Horizon** hood is a low-profile, freefall design that makes a bold statement in the kitchen. Available in white or black glass with a sleek matte finish, Horizon was an original Zephyr showstopper and now makes its return with an updated design. Horizon features Dual Capture Zones that collect contaminates through two entry points to improve capture performance for hard working home chefs. Capacitive touch controls integrate into the flat glass surface and ambient lighting illuminates the cooking surface when in use and provides a soft, intimate combination of light and shadows at night.

Inspired by an abstract art installation, the design-forward **Apex Wall** features a two-layer glass canopy with Perimeter Aspiration System to ensure a smoke- and grease-free kitchen. Available in white or matte black glass, Apex pushes the boundaries of kitchen ventilation with its thin profile, geometric shape, and Capacitive Touch Controls.

DESIGNER COLLECTION

The **Vista Wall** and **Vista Island** are the perfect marriage of design and technology. Both hoods are equipped with the cutting-edge Perimeter Aspiration System, a technique that increases air velocity and improves the capture of cooking contaminates. Featuring a low-profile design, the Vista range hoods have a sleek stainless steel body, brilliant LED lighting, and Invisible Touch Controls that blend seamlessly into the range hood canopy when not in use.

Streamlined pyramid-shaped styling and a menu of blower options make this updated and improved **Layers Wall** the timeless classic hood your kitchen needs. Featuring our state-of-theart Perimeter Aspiration System, which increases air velocity and improves the capture of cooking contaminants. Packed with a bevy of additional features like Invisible Touch Controls and tri-level LED lighting.

DESIGNER COLLECTION

The **Mesa Wall** is a designer's dream with its three dramatic finishes in matte black, satin gold, and stainless steel. With Invisible Touch Controls, hybrid baffle filters, and multiple blower options, Mesa's sophisticated design takes glamour to new heights and perfectly complements mixed metallics in the kitchen. Optional accessories include duct covers in matte black, satin gold, and stainless steel, along with an accent rail in either satin gold or stainless steel. Both accessories can be mixed and matched with any Mesa hood,

### DID YOU KNOW?

The Perimeter Aspiration System moves airflow away from the central area of the hood and evenly distributes it through narrow openings around the perimeter of the hood. This ventilation method increases air velocity and improves the capture of cooking contaminants.

\*Blower sold separately.

\*\*CleanAir turns your hood on once every four hours for 10 minutes on speed one. \*\*\*Not compatible with optional duct cover. \*\*\*\*10" round duct connects to external and in-line blower. Must transition from 10" to 8" before duct passes through ceiling. A 10" to 8" adapter is included with external and in-line blowers.  $\dagger$ Mounting height refers to distance between top of a 36" tall cooking surface and bottom of hood.
