Zephyr has transformed the kitchen with design, discovery and customer care, and played an integral role in kitchen trends. With Presrv™ Wine and Beverage Coolers, Zephyr applies its superior craftsmanship to the art of refrigeration, challenging the competition with high-quality performance and features at an attainable price point. The new Presrv Full Size Wine and Beverage Cooler keeps everyone's favorite beverages—from wine and craft beer to sodas and juice—at the perfect temperature and easily accessible with features such as a rollout bin and full-extension wood racks. And the recently introduced Presrv Pro models are the perfect complement to professional kitchen appliances, ensuring your prized wine collection is chilled to perfection and keeping tall bottles of spirits, champagne or sparkling water on hand with a retractable quarter shelf. Whether you like to savor a carefully crafted cocktail in solitude or enjoy your aged cabernet sauvignon with fellow wine enthusiasts, Presrv offers an elevated experience.

“Presrv **strikes the perfect balance** between elegant details and innovative technology.”

THREE WAYS TO CHILL

- **Full-Size Dual-Zone Wine and Beverage Cooler:** Ideal for families and entertainers, this system combines wine preservation and beverage storage. It features a roll-out stainless steel bin, two distinct temperature zones and a Vibration Dampening System that helps to preserve flavor and development of wine over time.
- **Pro Dual-Zone Wine Cooler:** Designed with a wider frame, pro-style handle and integrated lock, Presrv Pro coolers are a perfect complement to professional appliances. PreciseTemp™ maintains accurate temperature and three-color LED lighting in Cloud White, Deep Blue and Amber helps to set the mood.
- **Pro Single-Zone Beverage Cooler:** With room for 112 12-ounce cans and a retractable quarter shelf ideal for taller bottles, the Pro Single-Zone Beverage Cooler makes storage of one's favorite drinks simple and efficient. The cooler features three-color LED lighting and PreciseTemp temperature control that dips down to 34 degrees.
