

## Quick-Start Guide

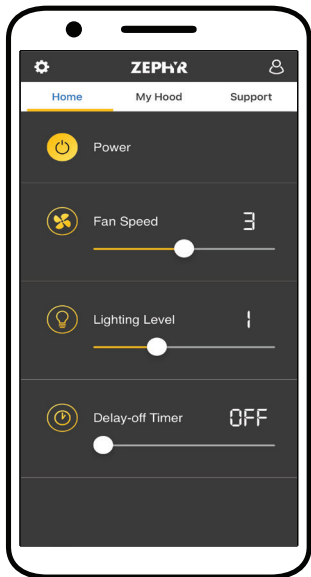

Thank you for choosing Zephyr!

Your range hood is compatible with our Zephyr Connect app. All you need is a Wi-Fi connection with access to the internet.

Zephyr Connect allows you to control your range hood from anywhere using a mobile device or smart speaker; includes real time diagnostics and provides you with important product information. Please follow this Quick-Start Guide to get started.

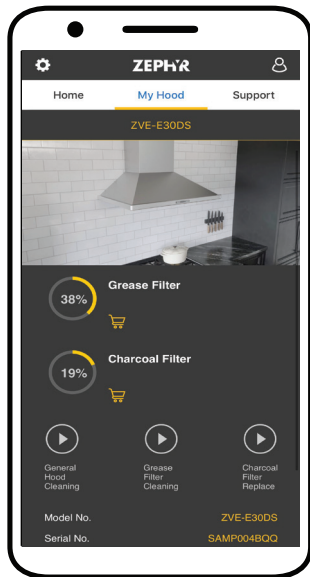

Zephyr Connect helps you connect to what matters.

## Zephyr Connect App Features

Control your hood remotely with convenient slider buttons:

- Fan Speed
- Lighting
- Delay-Off Timer

View important information:

- Filter Life Status
- How-To Videos
- Model and Serial Numbers
- Warranty Information

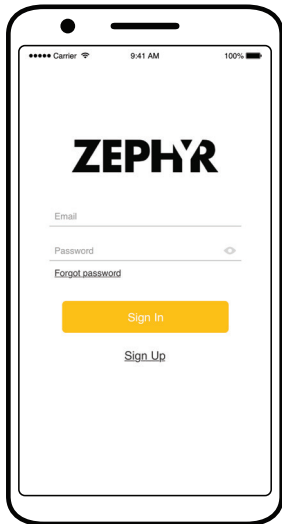

## 1 Getting Started

Ensure your range hood is connected to a power source and within range of your WiFi network.

## 2 App Install

Download the Zephyr Connect app from Google Play or the Apple App Store, and follow the on-screen instructions.

### NOTE:

You will need to place your hood into Bluetooth®-pairing mode during setup.

For models ALU and DLG, hold Fan Down for 3 seconds.

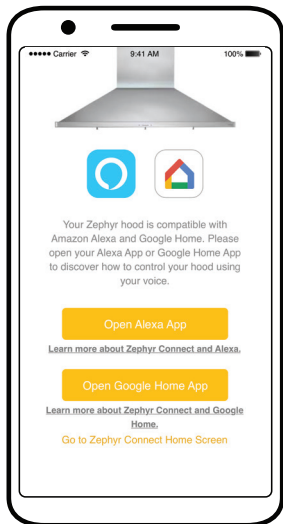

For all other models, hold the Fan Down and Lights buttons simultaneously for 3 seconds.

The Bluetooth® pairing code is 123456.

3

## Amazon Alexa and Google Home Connectivity

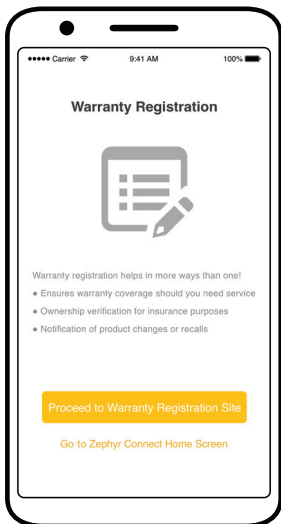

During setup, follow the on-screen instructions to connect your hood to Amazon Alexa and/or Google Home. This can also be set up later by tapping the Profile icon (👤) in the app.

## Warranty Registration

During setup, follow the on-screen instructions to register your hood's warranty. This can also be set up later by tapping Support in the app.

### NOTE:

You will create a Zephyr Online Store account during this process which is separate from the Zephyr Connect account.

## Amazon Alexa

Here are some commands you can give Alexa:

**Turn hood on to last setting or turn it off:**

*Alexa, turn [On, Off] Zephyr.*

**Set a specific fan speed:**

*Alexa, set Zephyr Fan Speed to [1-6].*

**Set a specific light level:**

*Alexa, set Zephyr Light to [1-3].*

**Start/Stop Automatic Delay-Off Timer:**

*Alexa, [Start,Stop] Zephyr Delay Off Timer.*

**NOTE:**

You can rename your Zephyr hood in the Amazon Alexa app.

## 6 Google Home

Here are some commands you can give Google Home:

**Turn hood on to last setting or turn it off:**

*Hey Google, turn [On, Off] Zephyr.*

**Set a specific fan speed:**

*Hey Google, set Zephyr to Speed [1-6].*

**Set a specific light level:**

*Hey Google, set Zephyr Light to [1-3].*

**Start/Stop Automatic Delay-Off Timer:**

*Hey Google, start [1-10] minute timer on Zephyr.*

*Hey Google, stop timer on Zephyr.*

**NOTE:**

You can rename your Zephyr hood in the Google Home app.

## Troubleshooting

**Q:** How many accounts can I use to control my range hood?

**A:** Only one range hood can be bound to an account. However, you can log into multiple devices using the same Zephyr Connect account.

**Q:** My device is not pairing via Bluetooth to the range hood.

**A1:** On your device, make sure Bluetooth is turned on.

**A2:** Make sure Bluetooth pairing mode is enabled on the hood.

**A3:** Make sure the correct pairing code is used; 123456.

**A4:** In your phone's Bluetooth settings, forget or delete any "Zephyr" devices and try again.

**Q:** The range hood will not connect to WiFi. Note: When your range hood is connected to WiFi, you will see the WiFi icon illuminated on the range hood controls.

**A1:** Make sure your device is connected to the same network you are trying to connect your range hood to.

**A2:** Make sure you are connecting to a 2.4 GHz network.

**A3:** Make sure your range hood is within range of your network.
