### drinks station

This was originally a large closet off the kitchen, but Meg and Joe removed the doors and added an arch to turn it into a chic nook. (It's a perfect spot for prepping hot cocoa!) The granite-top cabinets, painted Contented by Sherwin-Williams, match the Ann Sacks x Studio McGee glossy sage tiles on the backsplash.

“We kept the kitchen fairly neutral, so we wanted a light pop of color in the bar.”

—Meg”
