DESIGN | STORIES

ZEPHYR ALL THE RANGE

The range hood may be mounted high, but it often assumes a low profile in the kitchen, letting other appliances get all the aesthetic glory—until now. From Zephyr comes the Forte Wall Custom Hood, a fully customizable model that merges traditional design and modern elements with premium craftsmanship and the technology and innovation for which Zephyr is known.

This essential sidepiece makes a front-and-center statement with the flair and fanfare it deserves. The beauty and genius of the Zephyr Forte Wall Custom Hood is its bespoke design, which can be tailored (in 92 possible combinations) to jive with your kitchen's vibe—without the long wait times or hassle of traditional custom craft. Fashion your dream look by first choosing the body size in 36 inches or 48 inches, both of which are compatible with Zephyr Hood Inserts. From the small and mighty Monsoon Mini to the state-of-the-art Monsoon Connect, these sleek and chic options come loaded with cutting-edge features and smart tech. Then opt for a 12-inch or 18-inch duct cover. Once the basics are buttoned, let your creativity kick in by souping up your hood and duct covers with designer banding in fancy finishes. Go classic with polished stainless steel, choose satin gold for a gilded glow, or select modernist matte black.

The Forte Wall Custom Hood is one of the easiest to install custom hood enclosures on the market, thanks to the Zephyr unique installation system that eliminates the usual complications and saves you time and effort.

The kitchen can be both substantive and stylish. Elevate your space with the elegance of a Zephyr Forte Wall Custom Hood by visiting zephyronline.com.

STONE COLD THINGS

Presrv™ Refrigeration is the coolest way to keep beverages at optimal storage temperatures. With innovative technology and the sleek, fashionable looks you expect from Zephyr.
